

# COUNT YOUR BLESSING!

## THIS TOO SHALL PASS!!

1. When all of us were in a state of flurry  
And the world seemed to be in a daze of hurry.
2. The little virus crept in but slowly  
The enormous human then appeared so lowly
3. Did we ever imagine the havoc it would cause  
Defying all existing norms and laws.
4. Across countries, borders, districts and states  
Making foes out of those who were once mates.
5. Be it America, China, Italy or Paris  
The dreaded and awful – the Corona-19 Virus.
6. On making its entry from Wuhan  
The little evil caused utmost harm.
7. Creeping stealthily it took over China  
And from there moved onwards to the land of Lady Diana.
8. Spain, Australia and even India it did not spare  
Engulfing each country one by one into its lair.
9. Strong men, big machines and technology stood still  
Making a mountain literally out of a molehill.
10. When touch was forbidden and contact completely banned  
And preference being accorded to everything unmanned.

11. But it brought with it a quiet feeling an eerie ,calm sense  
When man started viewing things with a different optical lense.
12. Staying indoors, eating home cooked food took over in style  
Replacing exotic vacationing and cruises on the Nile.
13. Loving, feeling and caring for each other gradually grew  
And many a bond and filial ties we did renew.
14. With playing board games and cooking and watching movies being the new  
found norm  
We all bravely withstood the Covid lockdown storm.
15. Working from home and video conferencing online  
Kept us all knit together, fit and fine.
16. From gardening and even exercising indoors  
And mopping and sweeping and cleaning our own floors.
17. Leopards came on roads and Peacocks and Nilgais we could sight  
And nature reclaimed the world with all its might.
18. No reason to growl, snap, whimper or complain  
Even as the virus moves on carelessly in absolute vain.
19. Though visiting religious places, it may not permit  
But in-house chanting of prayers it will not be able to restrict.
20. We will continue to bang utensils, light diyas and cheer our medical staff  
To blow out this crowned enemy's whaff.
21. It can continue feeling arrogant while donning a big crown  
But all our efforts are bound to bring it down.

22. As mankind we shall stand together and strong  
And it will not be a battle now for long.

23. Hey Corona now you stop being such a lout  
Coz we will not permit you to rout us out.

24. Mankind has learnt its lesson to be balanced and humble  
Amid the din of life the rumble and tumble.

25. But for once leave us you little impish foe  
Go Corona, Go Corona, Go Corona-Go.
